Where We Are Going

- Headwaters is actively embracing change, working hard to enhance efficiency, and planning to meet the needs of our community well into the future.
- Changes in demographics and illness patterns mean that we need to bring together multiple stakeholders to nurture and support a system that embraces innovation in care delivery.
- Hospitals like Headwaters are ready to work with all levels of government to meet these challenges. We can do so by:
 - Strengthening the financial and operational stability of hospitals
 - Improving and maintaining quality of care and access to care
 - Continuing to harness the power of innovation and technology
- Caring for our communities requires a community-based approach.

Our Future Needs

- Current Emergency Department (ED) was built to accommodate 23,000 annual visits, currently seeing 37,000+ patients. We expect to be seeing more than 50,000 ED patients within the next 10 years.
- Top redevelopment priorities: Emergency Department, Obstetrics, Complex Continuing Care, Diagnostic Imaging, Critical Care Unit, Medical Device Reprocessing Department, and Pharmacy.
- Emergency Department will grow by 3,500 sq ft and Diagnostic Imaging will grow by 750 sq ft, with the goal of reducing wait times, improving flow and supporting a stronger patient experience.
- Proposed growth of 239,000 sq ft over 10-year period. Expanding to 333,000 sq ft over 20-year period.
- Headwaters is currently one of the largest employers in the region and we anticipate doubling the number of full-time employees over the next 20 years.
