

Plan/Strategy	Action/Measure	Reduction Potential	Sector
<b>Sustainable Neighbourhood Action Plan</b>	Conduct energy-efficiency audits and benchmarking to identify retrofit opportunities for Town buildings.	Medium	Buildings
	Develop a corporate Green Building Policy that includes minimum energy performance levels for new Town buildings.	Low	
	Adopt an established energy performance labelling program for new and existing Town buildings.	Medium	
	Undertake feasibility study for renewable energy generation for municipally owned buildings.	High	
	Support energy-efficiency retrofits of homes and community buildings (such as LED lighting, solar PV, or EV charging) through incentive programs.	High	
	Establish green building standards for new homes and buildings.	Medium	
	Formalize the Town's vehicle purchasing policy to assess vehicle needs and ensure high-efficiency vehicles are selected for purchase.	Low	Transportation
	Strengthen policy that encourages compact, mixed use, pedestrian-oriented development.	Medium	
	Provide information on low-carbon vehicle options, incentives and opportunities to increase fuel-efficiency.	Low	
	Increase the number of electric vehicle parking spaces and charging stations, incrementally as demand grows.	High	
	Install bike racks on transit buses to promote intermodal transportation.	Medium	
	Promote cycling through a complete bicycle network, bike racks, and free bike parking.	Medium	
	Explore renewable energy options for transit buses, at the time of replacement and/or purchasing.	Low	
<b>Corporate Conservation and Demand Management Plan</b>	Development of a Tree Preservation Plan and/or by-law.	Low	Environment/ Sequestration
	Maintain or increase natural buffers to protect and connect wetlands, water courses, water bodies, forests, and woodlands	Low	
	Promote the planting of native plants and trees which can adapt to a changing climate.	Low	
<b>Corporate Climate Change Adaptation Plan</b>	Undertake a training needs assessment to address capacity gaps and coordinate general energy management training for employees.	Low	Buildings
	Develop Standard Guidelines for Buildings, Controls, Maintenance (all buildings).	Low	
	Install energy efficient equipment where possible in Town facilities.	Low	
	Create a Corporate Guidebook for Energy Efficiency Purchasing.	Low	
	Work with community partners and local businesses to share best practices and resources to build climate resilience and reduce local greenhouse gas emissions	Low	Buildings
	Promote building standards that reflect updated climate projections and energy efficiency standards.	Medium	
	Follow energy efficiency best practices, standards and guidelines for all corporate infrastructure projects.	Low	
	Prioritize the electrification of the Town's fleet and expand charging infrastructure.	Low	Transportation
	Promote the planting of native vegetation along lakes, creeks and ravines to reduce erosion, maintenance needs, and enhance local biodiversity	Low	Environment/ Sequestration
	Develop an Urban Forest Management Plan that incorporates future climate considerations.	Low	
	Incorporate climate change mitigation and adaptation into the next update of the Strategic Plan.	Low	Corporate
	Incorporate climate change considerations into the Town's Official Plan.	Medium	
	Investigate best practices and update corporate procurement policy to incorporate climate change and sustainability considerations.	Medium
