

Subject: Orangeville - Earth Day Canada Tree Planting Relay (July pledge)

Good Morning,

Thank you very much for applying to participate in the Earth Day Canada tree planting relay! I apologize for the delay in confirming the details of this program.

You had requested to make your pledge this spring and we are hoping that it is OK to schedule you to make your pledge on July 22, 2021. I apologize that we were not able to accommodate you for earlier. We will provide you with the social media visual and suggested text at the beginning of your “pledge” month so that you can schedule your pledge on social media. We will also soon provide you with details on the financial support that is part of this program.

Please let us know if this is a good month for you to announce your participation in the Earth Day Canada Tree Planting Relay. If not, we can discuss options of a different month.

Remember, you can plant your trees before or after this date. If you planted before this date, you can include details (and photos) about the planting with your pledge announcement. If you do it after, you can provide those details for us to post on our website.

Please let me know if you have any questions in the meantime.

Best regards,

Katherine

Katherine L. Forster – Canadian Outreach Officer (she/her)

Mission : To help people and organizations reduce their environmental impact.

Celebration through action, on Earth Day - April 22 - and Every Day!
