Background and Analysis

“Orangeville Forward – Strategic Action Plan for the Town of Orangeville” ([Orangeville Forward](#)) was approved by Council in July 2017. Development of this strategic plan included extensive engagement and input from the public, Town staff and Council and is designed to complement and work in conjunction with a number of other corporate plans, the annual budget and departmental plans that support corporate operational activities. Orangeville Forward updated the Town’s vision statement and corporate values along with the identification of five key priority areas and related actions. The five key priorities provide a framework for the high-level objectives and actions to be pursued in order to maintain and grow Orangeville as a safe, prosperous and healthy community.

The five-priority areas within the Strategic Plan are Municipal Services, Strong Governance, Economic Vitality, Community Stewardship and Sustainable Infrastructure.

As well, a Council planning session was held on December 7, 2020 which summarized and weighted the priorities of Council to assist staff with departmental workplans.

The attached Strategic Plan Progress Report 2021 – 2020 Accomplishment features just some of the key achievements by the Town under each of the five strategic plan areas and highlights the priorities set by Council’s direction at the planning session, plus the re-alignment of priorities and great achievements in 2020 due to the sudden COVID-19 pandemic.
