

To The Council of the Corporation of the Town of Orangeville

RE: Zoning By-Law Amendment (File No. RZ-2021-02)

As tax paying members of the community, we wish to object to the proposed amendment. The traffic created by a project such as this will be much too heavy for the small area where many businesses, apartments, condos, and homes already exist. The building will not make the approach to Orangeville visually appealing at all. The location is not the appropriate spot for a building this tall in our town. The bottom of the building being proposed is all garage! What an awful appearance this will be approaching our beautiful community.

A project such as this needs to be in a different location than the entrance to our town.

Sincerely

Rob & Annie Harwood-Jones

Orangeville, Ontario
