

Hi There,

My name is Austin, Community Champion for the Starbucks here in Orangeville. I am reaching out to you because I would love to get involved with some of the many programs and initiatives with the Sustainable Orangeville Committee! Personally, I have always been big on helping the community and environment. I would love to chat about some ways Starbucks could volunteer or support some program and initiatives in the community!

A little bit about my role at Starbucks. A Community Champion is a partner who does good for our communities in ways big and small. They:

- Demonstrate how to inspire and nurture the human spirit, one neighborhood at a time, by uplifting the everyday in their communities and stores.
- Cultivate connections in and out of stores between partners, customers and neighborhoods in order to strengthen our neighborhoods and the business.
- Create a positive impact for people and the planet—and inspire others to do the same.

We have already done a couple of Initiatives ourselves. Our Book and Board Games Donation Drive. Where we collected used books and board games from members of the community and the Orangeville Library. We have donated books to local organizations such as Family Transition Place and Choices Youth Centre. As well as local public schools. We have planned some upcoming Street and Park clean-ups around the store. We will be picking up garbage from Fendley Park and Every Kids Park. Along with Alder Street, Riddell Road, and Centennial Road.

If you think of anyways we can give a helping hand, please contact me by email or phone!

Sincerely,

Austin Lethbridge
Community Champion
